

**THE WORLDWIDE  
DIVING STANDARD**

# VIKING™ XTREME

Viking XTREME rear entry version (inset shows a Viking XTREME front entry).

The Viking XTREME is manufactured from a light-weight polyurethane material, with PU reinforced knee pads fitted for additional protection. This material is easy to clean should it become contaminated. Seams are high frequency welded for ultimate strength and security. The XTREME is an ideal drysuit for sports/wreck diving and technical diving.

- Strong lightweight material
- High frequency welded seams for security
- Easy clean smooth exterior
- Reinforced knees
- Front or rear entry models available

#### **SUIT MATERIAL**

Embossed single coated knitted fabric, with polyether polyurethane. Total material weight is approximately 474 g/m<sup>2</sup>.

#### **SEAMS**

External seams are high frequency welded for security. Internal seams are heat taped to hide the seam.

#### **COLOR**

Black with black reinforcements.

#### **SIZE RANGE**

- Viking Regular: 00/SML, 01/MED, 02/LGE, 03/EXL, 04/XXL
- Viking Wide: 00/SML, 01/MED, 02/LGE, 03/EXL, 04/XXL
- Viking Double Wide: 00/SML, 01/MED, 02/LGE, 03/EXL, 04/XXL

See the Viking size chart for detailed size measurements along with boot sizing.

**THE WORLDWIDE  
DIVING STANDARD**

# VIKING™ XTREME

## **REINFORCEMENTS**

PU embossed knee pads are welded above and below the knees for additional protection.

## **ZIPPER**

Rear entry suits has an 85 cm long medium duty PU zipper, placed across the shoulders. The zipper is welded into the suit.

Front entry suits has a 90 cm long medium duty PU zipper, placed across the upper body. The zipper is welded into the suit. A zip flap is fitted as standard on front entry suits.

## **VALVES**

Standard configuration includes the following mounted on rubber backing discs:

- Push protected inlet valve, positioned centrally on the chest
- Hose: CEJN fitting, 80 cm long
- Low profile exhaust valve, placed on the upper left arm

## **NECK SEAL**

The Viking XTREME is fitted with a Surveyor latex neck seal as standard. Option: Viking Quick Connect collar system which allows for quick changing of broken seals.

## **HOOD OPTIONS**

Viking XTREME suits may be fitted with a wide range of hood options as follows: Surveyor latex hood + thermal inner hood, Nautic neoprene hood with smooth face seal or Smoothskin hood.

## **CUFFS**

Latex conical cuffs are the standard fitment. Alternatively the suit can be fitted with a rubber cuff ring system or the Viking Bayonet Ring System. Both systems make the fitment of latex gloves possible.

## **FOOTWEAR**

Rubber coated 5 mm neoprene boots are fitted as standard.

## **INCLUDED WITH EACH DELIVERY**

Each suit comes supplied with suspenders, carry bag, user manual, repair kit and zip care materials.

## **CERTIFICATION & APPROVALS**
