

## DIVER RACK VIDEO & COMMS SYSTEM

The new C-Tecnic's rack unit is a complete dive station suitable for any dive!

Complete diver video and comms system, the C-Tecnic's Rack Systems incorporates many of C-Tecnic's products, including the 3 diver C-Phone comms unit, dual camera & lamp supply unit and HDD recorder. The 3 diver C-Phone is a comms unit built using modern electronics to give you the sound quality you deserve. The C-Phone allows you to switch communication from diver to diver or all divers at once. It incorporates its own rechargeable battery for back-up in the event of mains power failure. The dual camera and lamp supply is capable of supplying power to 2 sets of cameras and lamps as standard, there is room for an additional power supply to be fitted if further cameras and lamps are required. The unit comes complete with a 1TB hard disk drive for recording diver's video and comms and includes video editing software. The HDD unit also has room for additional hard drive and has several USB interfaces for transferring video and comms files. Further options are available.
