

LCC-L3C-RA

Right Angled Adapter Option for Low Cost Titanium Cameras

underwater **vision** specialists

Features

- High Resolution
- Small Size & Weight
- Low Light Sensitivity
- 6,000 Metre Rated Titanium Housing

Description

The Bowtech Products LCC-L3C-RA right angled adapter can be fitted to any of the low cost titanium housed underwater monochrome, or colour cameras. It is an option which can be added to the cameras after they have been purchased.

The adaptor adds 34.6mm to the length of the camera, which brings it to a total length of 171.7mm; however the diameter of 31mm remains unchanged.

The addition of the right angled adapter makes the camera range even more versatile and suitable for a wider range of applications.
